Names	Category	Week 1 (4/3 - 4/7)			
Jeff	Things you did well	used the tools more efficiently for studying and completed many challengesExposed to APEX and SOQL and SOSL and they seem pretty straight forward. I need to look at triggers a bit more			
	Things you can Improve on	I need to learn more about the manifest so we do not clash with each other in the future and fine tune skills on SOSL			
	Any unresolved user stories	none			
	Velocity	none			
	Other comments				
Nick	Things you did well	Made an ERD, so that we have a better foundation to start from			
	Things you can Improve on	Using flex time more efficiently			
	Any unresolved user stories	no			
	Velocity	0/N/A			
	Other comments				
Parker	Things you did well	Helped break down some of the use cases for content we are familiar with			
	Things you can Improve on	Not familiar enough with new content			
	Any unresolved user stories	0			
	Velocity	0			
	Other comments	haven't chosen all use cases yet, will make significantly more progress next week			
Sam	Things you did well	Broke down the use cases well; utilized Schema Builder			
	Things you can Improve on	I don't have much familiarity with some tools like the lookup filter, which seem to be important to know for preparing to tackle new use cases - I could definitiely improve my familiarity with tools such as the lookup filter			
	Any unresolved user stories	0			
	Velocity	5			
	Other comments	completed the ERD and got assigned use cases; didn't get assigned a use case for the last category yet			
Taylor	Things you did well	Getting Adjusted to the new material; Setting up the Trello board for our work and identifying user stories that I can begin working on			
	Things you can Improve on	Understanding the visualforce stories; getting started on these user stories, but hoping to improve my progress on them over the weekend			
	Any unresolved user stories	0			
	Velocity	6			
	Other comments	(Velocity 6 because I plan on finishing 2 stories this weekend)			
Firehawks/ team as a whole	Things you did well	Getting the pre-requisites for our project completed (ERD formatted, Trello set up, developing an approach to our apex uploads via VS, setting up our org)			
	Things you can Improve on	Getting the user stories started			
	Any unresolved user stories	N/A			
	Velocity	11			
	Other comments
